

# **NILES HIGH SCHOOL**

## **GUIDING STATEMENT**

Our purpose is to prepare our students to be responsible, productive adults\*.  
That preparation involves:

Mastery of basic academic skills

Experiences with and expectations of:

Being self-disciplined and accepting responsibility

Being self-motivated with a willingness to learn

Being a problem-solver in academic and social arenas

Developing positive attitudes and habits

Developing teamwork skills

To help achieve our goal we must implement a curriculum design that focuses students in a career/educational direction. We must continuously strive for ways to make our subjects meaningful and relevant to real life experience. Our expectations for academic achievement need to be demanding within a support system in which students can succeed. The climate of our school will reflect the values of respect, courtesy, and safety.

\*responsible, productive adults means that students will have the skills, both academic and affective, to be successful at home, in the community and in the world of work.
