

# COVID-19 DASHBOARD

---

There are many ways to share information in an effort to paint a picture of the presence of COVID-19 in our school and school community. By sharing our **COVID-19 Dashboard**, Niles Community Schools is attempting to accurately portray the number of staff and student positive cases that are present in our schools and the number of staff and students who are quarantined.

Berrien County Health Department (BCHD) provides us with this information and every Friday we take a snapshot of our counts and post them on our dashboard.

Daily counts by school can be found on Berrien RESA's website [here](#). While all information is provided by BCHD, the data on the Berrien RESA website contains cases "associated with schools" and includes those who tested positive or are probable cases. In addition, the numbers on BRESA's website include individuals who may not be staff or students attending in-person instruction but are still associated with our school community.

If you have any questions about the data, please contact Tracy Hertsel at 269-683-6662.

# COVID-19 DASHBOARD

All data related to this dashboard is provided to NCS directly from the Berrien County Health Department.

Niles Community Schools (NCS) will share an updated COVID-19 Dashboard graphic each Friday afternoon. Due to HIPAA (Health Insurance Portability and Accountability Act) and FERPA (Family Educational Rights and Privacy Act) laws, no personal information will be given.

When NCS administrators receive notification of a positive case, they connect with the county health department who traces, and directly contacts those in close contact of that person. NCS will notify the school family of the case and the actions taking place.

## DATA FOR NOV. 25, 2020:

6  
<2%

# of students confirmed positive

1  
<1%

# of staff members confirmed positive

146  
<5%

# of students in quarantine (current/%)

6  
<2%

# of staff members in quarantine (current/%)

**NOTE:** Not all buildings have a student or staff member with a positive case. A student or staff member in quarantine does not equal a positive case, as they could be in quarantine due to direct contact or displaying symptoms.
